BPO SERVICES

Data Entry, Freight Forwarding, Accounting, Process Analysis & Software Development

Why Outsource to India

India remains the ultimate outsourcing destination

In a recent survey, 80% of European and US outsourcing firms ranked India as their number one outsourcing destination. The National Association of Software & Service Companies (NASSCOM) also reported that almost half of all Fortune 500 companies choose to Outsource to Indian outsourcing firms.

Even though many other countries (including China, Mexico, Ireland and the Philippines) have emerged as major competitors, India has managed to outsmart all others and emerge as the top outsourcing destination.

Major differentiators such as certain favorable government policies, fast-developing infrastructure, and an immensely talented work force are responsible for the Indian IT & ITES outsourcing industry continuing to experience a tremendous growth rate of 25–30% per year.
